PROFESSIONAL SUMMARY

B.Tech Computer Science student at Maharaja Surajmal Institute of Technology (MSIT), Delhi, with hands-on experience in Java development, Data Structures & Algorithms, and database management. Skilled in HTML, CSS, JavaScript, SQL, and Git, with experience building real-world applications. Currently learning modern web development concepts and eager to adapt to new technologies quickly while contributing effectively to collaborative software projects.

PROFESSIONAL EXPERIENCE

Software Development Intern, codealpha Pvt.ltd

04/2025 – 05/2025

- Developed two standalone desktop applications using Java Swing for real-world use cases: a GUI Calculator and a Student Grade Tracker System.
- Built a fully functional GUI-based Calculator supporting all basic arithmetic operations and dynamic input handling using event-driven programming.
- Created a Student Grade Tracker System that stores and processes student data using MySQL, automatically calculates percentages and grades, and provides grade-wise analytics, including maximum, minimum, and average performance metrics.
- Utilized JDBC to integrate the Java Swing front end with a MySQL backend, enabling seamless data storage, retrieval, and management.

SKILLS

- Programming Language: **C, C++, Java**
- Web Technology: **HTML, CSS, JAVASCRIPT, BOOTSTRAP (Basic)**
- Backend: **JDBC, Servlets, JSP**
- Database: **SQL , DBMS**
- Tools: **VsCode, Eclipse, IntelliJ, Github**
- Core Subjects: **DBMS, OOP, Operating Systems**
- Problem Solving: **250+ DSA problems on LeetCode**

EDUCATION

B.Tech in Computer Science, Maharaja Surajmal Institute of Technology Delhi

2024 – present | Delhi, India

Diploma In Electrical Engg., Government Polytechnic Sitamarhi, Bihar

2020 – 2023 | Sitamarhi, India

PROJECTS

Full-Stack Expense Tracker System

- Designed and developed a web-based Expense Tracker using Java, Servlets, JSP, and MySQL.
- Implemented core functionalities, including User/Admin Login, Expense Management (Add/Delete), Category-wise Expense Tracking, and Expense Filtering.
- Utilized JDBC for efficient connectivity and interaction with the MySQL database.
- Implemented role-based authentication and session management using HttpSession.
- Developed an admin dashboard to monitor total users, transactions, and overall cash flow.
- Designed a responsive and user-friendly interface using HTML, CSS, and Bootstrap 5.
- Documented the project and published the source code on GitHub.
- **GitHub:** github.com/Krishna656394/Expense-Tracker-Java-Servlet 📄

ATM Simulator System (Java Swing, JDBC, MySQL)

- Developed a desktop-based banking application supporting 8+ banking operations such as withdrawal, deposit, balance enquiry, and PIN change.
- Integrated MySQL database using JDBC for secure transaction management.
- Applied Object-Oriented Programming principles to build a modular and maintainable system.
- **GitHub:** https://github.com/Krishna656394/ATM_Simulator_System.git 📄

CERTIFICATES

Java Virtual Internship Completion Certification

[CA/AP1/7921] 15 April to 15 May

Java Course-Mastering the Fundamentals

10 March 2025

Java Basic

[BBA36E43BF27] 13 August 2025

CSS Basics

[F4437715DA1B] 21 February 2025
